

Architecture CBF Committee
Official Minutes of Tuesday, April 14, 2009
Minutes Started at 11:06 AM

Attendees: Tiffany Carlson, Cailin Swarm, Nick Pappas, Tom Einspahr, Corey Kawamoto, Isshin Morimoto, Andrew Wright, Derick Lee, Scott McColl, Henri De Hahn, Josef, Fernando Gonzalez, Jaclyn Brady

- Chumash
 - May 22nd weekend
 - Last year, budget of \$15,000
 - Show off achievement of past 5 years
 - Also, what you've done this year!
 - This year, at 6 pm
 - That way, studio will be out, and students can attend
 - Also for local people to come
 - Community and student experience
 - Catered, music, etc
 - Tradition to make it better than the year before
 - 6th year of the show
 - growing each year
 - example- the booklet. Has gotten more elaborate each year
 - A big event
 - Paid for complexly by sponsors
 - Firms
 - Alpha Rho Ki
 - CBF?
 - We would pay for the booklet
 - Last year, \$3,000, CBF paid \$2,000
 - This year, one page per student, in color
 - Much more substantial
 - About \$3,000 as well- getting more for less
 - For last 2 or 3 years, CBF has sponsored Chumash with at least \$2,000
 - Raising money:
 - Sent out announcements to many firms
 - At \$6,000 currently, expect another \$3,000
 - However, with the economy, unsure if all of that will come
 - Hoping for at least \$2,000 from CBF
 - If we gave more, where would the money go to?
 - There is a general pot, and then money is spent from the general fund as needed.
 - How much should we give?
 - No open tab or we will lose a lot of money
 - They will know how to spend it all!
 - Perhaps more than \$2,000 though, they are having trouble in the economy, and architects aren't donating as much

- At the show-
 - Should there be a poster with sponsors?
 - Maybe WE can pay for that?
- Computers
 - Allocated \$52,000 for G2 Funds
 - New computers on market that would better serve the lab
 - Old computers to studio
 - New Macs in the lab
 - Impact on all the students
 - Bought new computers 2 years ago
 - But these are more powerful
 - \$6,000 more
 - getting a great deal from apple
 - cheaper than original computers we planned for
 - but costs more because we would get more computers to fill lab
 - What happens to 5 extra computers (30 studio work stations, 35 lab stations)
 - Probably would go to other studios
 - We will notice the difference between these computers!
 - 2 years old is pretty old for a computer
 - Also, good deal right now
 - Good idea to put old computers in the studios
 - Only \$6,000 more
 - Probably no huge rush to decide this however
- Stickers
 - Need to get them on all the stuff we purchased
 - A good start, now we need to fuss with the details
 - Can probably get good deal when we buy them
 - Single color?
 - Maybe we should look at other companies as well?
- Laser Cutter
 - On hold... dealing with campus purchasing before it is installed
- Plotter
 - Still testing (facilities management)
 - We should either purchase or facilities management- no leasing
 - Should be in MRC or in lab?
 - Upstairs, probably increased usage
 - A few issues we would have to deal with
- Josef
 - G2 Money
 - Was supposed to get money

- Projectors for fishbowl
- Speakers for Berg
- Etc

Photo Studio- lighting equipment was purchased

Still need cameras

- Literally breaking
- Only one camera still working, but not well

Budget for photo studio- \$2500/year

- Can't really pay for cameras on their own

Still need accessories and cameras

- A few thousand dollars would cover it

Had 3 cameras

- Asking for 1, but 2 would be great
- Always have a backup

Moving from Fuji to Nikon equipment

- Have lots of Nikon equipment already, also Nikon has re-entered field as a competitive company
- Nikon batteries recharge
- Will need backup batteries for the cameras

If money comes back to department, the old cameras could be repaired and then loaned out

- This is expensive however

Can get a dollar amount for next week

We need to get money to Josef!

- Really important part of the department
- How much should we give?
- Can we cover the repairs?
- 2 cameras probably and the lighting accessories
- We need to wait on the budget however
- Probably about \$8,000
- This will make a huge difference for students

- Next week...
 - Josef will be back
 - Computer vote
 - Chumash vote
 - Camera vote perhaps
 - Steve maybe
 - Tom will have people to talk about Rapid Prototyping

Meeting adjourned at 12:04 PM
