

Architecture CBF Committee
Official Minutes of Tuesday June 12, 2007
Minutes Started at 1:12pm

Attendees: Guillermo Perez, Stephen Silva, Ryan Starr, LuLu Saleh, Cameron, Robertson, Vuk,

- Jim Doerfler
 - Laser cutter also joined us in the meeting.
 - It will be set up for next year in the GRC building.
 - The CNC router's quote is in progress: base price \$29,500; \$32,400 for the Haus. Shipping + installation will add \$4,000 to \$5,000 to the base price.
 - If we approve the purchase of the CNC router now, if there is an opportunity during the summer to purchase it, there won't be any problems in purchasing.
 - Ideally, we would have a modeling station, Laser cutter, CNC router, 3D printer and an adjacent instruction station.
- The Mac Lab is in need of new computers because they can't run any of the new programs (e.g. Revit, MicroStation)
 - There needs to be enough to run a class >20
 - Possibly just replace the towers because the monitors are working fine.
- Ryan has a few ergonomically sound chairs to look at.
- Vote on a \$33,500 budget for the CNC router: unanimous YES
- Vote on replacing/updating computers in Mac Lab: unanimous YES
- Vote on replacing/updating monitors for the Mac Lab: unanimous YES
- Vote on giving him (him being Josef for the Photo Lab) a \$16,000 budget: unanimous YES
- Meeting adjourned: 2:22pm
